

CHERISHED FRAMES

CROP SESSIONS

www.cherishedframes.com

Crop sessions are a good way for you to make time for yourself and get some scrapping done without distraction and without having to get everything out and mess up your house. At our crop sessions you are able to come and make full use of our equipment, you can also have a chat and get ideas, inspiration and help from other scrappers and myself.

Our crop sessions run every second Wednesday from 10am-3pm and also from 7-10:30pm. The cost is \$5 per person for each session and includes the use of all tools, knives, cutting mats, rulers, markers, cuttle bug, stamps, heat gun, etc.

For a small fee you can also use my consumables such as embossing powder, paint, ink, etc or you can bring your own. A range of products will also be available for sale (paper, headings, embellishments, etc) and if you need a particular item for your project just let me know and I can usually have it in by the next session.

Tea coffee and inspiration are free but please bring your lunch along for the day session. Book your spot now as places are limited.

Please call or email Belinda with any inquiries or to make a booking:
